

Please do not change the New Jersey DO NOT CALL law! I am a working parent and feel that I do not get enough time with my family so do not want "non wanted" phone calls interrupting our precious family moments. It is also very annoying to receive these calls after 8:00PM when my 4 year old is already asleep. This law is needed - if I wanted some service or product I will search it myself. I do not need telemarketers calling our home. Thank you.
